Jesus Christ and Quantum Principles

Here are some commonly cited conceptual overlaps people draw between Jesus' teachings/actions and ideas similar to quantum principles, stated neutrally and without claiming scientific equivalence. Also included, a summary of some basic quantum understandings.

---

1. Observer Effect (measurement influences outcome)

Quantum idea: In quantum physics, observation plays a role in determining the state of a system.

Often-paralleled teachings/actions of Jesus:

- Emphasis on inward intention shaping outward reality
  - "If your eye is healthy, your whole body will be full of light" (Matthew 6:22)
- Judgment of heart motives over external behavior
  - (Matthew 5–7, Sermon on the Mount)

Analogy people draw: Inner "observation" (attention, intention, belief) influences lived experience.

---

2. Nonlocality (instant connection across distance)

Quantum idea: Entangled particles appear correlated instantly regardless of distance.

Paralleled narratives:

- Healing at a distance
  - Centurion's servant healed without physical presence (Matthew 8:5–13)
  - Syrophoenician woman's daughter healed remotely (Mark 7:24–30)
- Jesus' awareness beyond physical proximity
  - Knowledge of Nathanael before meeting him (John 1:47–48)

Analogy: Action or knowledge not constrained by physical proximity.

---

3. Wavefunction "Collapse" (multiple possibilities becoming one outcome)

Quantum idea: A system exists in multiple probabilities until interaction "collapses" it into one outcome.

Paralleled teachings/actions:

- Emphasis on faith shaping outcome among possibilities
  - "According to your faith let it be done to you" (Matthew 9:29)
- "Choice points" in moral/spiritual decisions
  - "Enter through the narrow gate…" (Matthew 7:13–14)

Analogy: Potential outcomes become actualized through decision, belief, or action.

---

4. Complementarity (two seemingly contradictory truths both being valid)

Quantum idea: Light behaves as both wave and particle depending on context.

Paralleled teachings:

- Jesus speaking in paradox:
  - "The last will be first, and the first will be last" (Matthew 20:16)
  - "Whoever loses their life will save it" (Luke 9:24)
- Divine/kingdom dual framing:

- “My kingdom is not of this world” (John 18:36)

Analogy: Reality expressed through complementary opposites rather than single categories.

---

5. Uncertainty / Indeterminacy

Quantum idea: Certain pairs of properties cannot both be precisely known (e.g., position and momentum).

Paralleled teachings:

- Limited human certainty about future outcomes:
  - “Do not worry about tomorrow…” (Matthew 6:34)
- Emphasis on trust over complete informational control:
  - “You do not know the day or the hour” (Matthew 25:13)

Analogy: Human perception is inherently limited; trust replaces full predictability.

---

6. Field / Unified Reality (everything connected within a larger “field”)

Quantum idea (interpretive in modern physics/philosophy): Particles arise from underlying fields; reality is interconnected.

Paralleled teachings:

- Unity of all things in divine source:
  - “In him all things hold together” (Colossians 1:17)
- Oneness between Jesus, followers, and God:
  - “That they may be one, as we are one” (John 17:21)

Analogy: Reality is fundamentally relational and unified.

---

7. Entanglement (linked states remain connected after separation)

Quantum idea: Entangled particles remain correlated regardless of distance.

Paralleled teachings:

- Spiritual union between believer and Christ:
  - “Abide in me, and I in you” (John 15:4)
- Shared identity/participation:
  - “I in them and you in me” (John 17:23)

Analogy: Persistent relational connection not limited by physical separation.

---

8. Superposition (multiple states existing simultaneously until resolved)

Quantum idea: Systems can exist in multiple states at once until measured.

Paralleled themes:

- Kingdom “already/not yet” tension:
  - “The kingdom of God is among you” (Luke 17:21)
  - Yet also prayed for as future fulfillment (Matthew 6:10)
- Dual identity language:
  - “In the world but not of the world” (John 17:14–16)

Analogy: Reality experienced as overlapping states of existence.

Quantum Physics Fun Facts

Photons, neutrons, electrons affect the physical world

- 6 billion revolutions per second
- Up to 82 electrons but they never collide
    - Electron is the spiritual dimension of God; it is the energy of the atom, the thing that gives it life
- Your brain is all electrons
    - When you have a thought, you are firing electrons
    - When they come close to one another, they displace each other and create a wave
        - The space between the waves created by electrons coming close together is called frequency
        - Frequency is determined by your thought: what you manifest is determined by your thoughts. Whatever you ruminate about is your frequency
- Material realms are the lowest frequency but have the highest vibrational waves. That is why the material realm "feels" solid because of all the electrons that are spinning at 6 billion rev/second
    - The higher the wave pattern the denser the frequency
        - Ex: steel has very high wave pattern
- The waves we see in our 3rd dimension are not the same as the trans-dimensional waves coming from God but they carry a frequency that resonates with every creature
- The light that comes from God's dimension is invisible to our natural eyes, but it is greater in strength and any light in our 3rd dimension
- You can't base understanding of God on our limited dimension because they are so beyond our sight and understanding and because we have created our filters to block His revelation, His light, His love, out
    - SOLUTION: be "in Him": you can't understand what is from heaven from here on earth
    - Science says you can't change matter; it has to come from another dimension
    - Choose to increasingly disassociate with the physical realm conditions and you will have greater receptivity to the higher frequencies from heaven
        - That's why Moses' face glowed-he was in heaven before God
- **JESUS CLEANSED ALL THE DIMENSIONS**. The battle now is based on your attachments to and the lies found in the 3rd dimension/the physical realm as you operate in your human body
    - EVERY DAY: close eyes, soak, contend for your awareness of His Presence
    - Must break from usual thoughts/ emotions

- **POLAR SHIFT OF SYNAPSES**
  - Thinning of the dividing membranes between brain hemispheres
  - Hidden "scalar energy" within the human body
  - 86 BILLION neurons
    - Electrical and chemical
    - Synapses are where neurons connect:
      - 100 TRILLION synapses in human brain
        - More than stars in the Milky Way…. John 16:12 too much for us to handle til now
  - Parallel to what is going on earth-there is a shift of North Pole
- **CELLULAR MEMORY**
  - Memories initially held in hippocampus
  - We get sick and have issues because of our cellular history
  - We have polarity in our synapses, but our brains are adaptable (neuroplasticity)
- **TYPICAL PATTERN IN HUMAN BODY**
  - 60,000 thoughts/day, 75% negative, 95% repetitive
  - 2% average brain usage; even Einstein was only 10%
  - Heart is 100,000 times stronger electrically than brain
  - Heart is 5,000 times stronger magnetically than brain
  - Polar reversal would change negativity, decrease our fight/flight
    - REST, be positive, Phil.4:9
    - Substantial increase in stem cells
    - Our body energy changes (increases) as we change emotions and increase our frequency
  - **HOW TO RE-WIRE YOUR BRAIN**
    - Play video games that force your brain to operate in different patterns
    - Learn a new language
    - Make music or art
    - Travel
    - Exercise
    - Create
  - **HOW TO INCREASE YOUR MAGNETIC FIELD**
    - Say YES to life
    - Be positive, refuse emotions ruling you
    - Do something new
    - Do repetitive things with conscious awareness
    - Choose positive people
    - Never give up-try one more time
    - Lift gaze to point between eyebrows
    - Analyze your mental diet
    - Meditation and breathing
    - Raise subconscious self worth
    - Surrender to God's will and alignment
    - Be aware that the physical world around you is always co-creating with you based on your thoughts, words, actions

- Mix and match with like minded people (cross pollinate)
- Be curious about others and engage sincerely
- Laugh at yourself, laugh often
- Stop complaining
- Try to help others feel good about themselves
- Accept yourself with grace but keep going forward
- Gratitude, thanksgiving, praise, worship
- Honor your body and accept it
- See good in others
- Stay in touch with nature
- Practice ascension and meditation
- Breathing-lift up your gates

THOUGHTS ARE MATERIAL

Mt. 5:27,28

WAVE-PARTICLE DUALITY

Particles can exist in every space simultaneously, mathematically characterized by infinite number of parameters

LAW OF ATTRACTION

"like attracts like": the power of your thoughts will attract positive or negative Experiences. Everything in the universe is energy; you create your reality with vibrational (Frequency of your desires0

LAW OF OBSERVATION

Uncertainty principle: the very act of watching/observing/meditating/focusing upon by The Observer will affect the observed reality

Newtonian physics: large scale objects
Quantum physics: subatomic particles

Electromagnetic spectrum:

- We see only a small part, but the bigger part is still real, and it affects us even though we can't see that part

If (xyz) thought, emotion, word, action isn't part of heaven's culture and you can't find it in Jesus, then it doesn't belong in your life either. To be carnally minded is death (Rom.8:6)

Faith if the frequency we must tune into; it is the reality that is not caught by the human eye

99.999% of universe is open/empty space. Col. 1:17 God holds it all together

QUANTUM ENTANGLEMENT:

- A group of particles seem to be connected in a way that Newtonian theory can't explain
    - When one particle changes state, the other entangled particles change at exactly the same time, even when separated by vast differences
        - Connected by God!
        - Rom. 6 we were baptized into Christ's death even though we weren't physically there
            - We die before we die; we rise before we rise
- Col. 3:13,14 you (already) died and your life IS hidden with Christ in God
    - WE EXIST IN 2 REALMS AT THE SAME TIME EVEN THOUGH WE DON'T KNOW IT
- Col.1:15-23 Christ has done all things,…WE are the ones who were alienated IN OUR MINDS because of our evil (lies we believed and acted upon)

FRACTALS: self repeating patterns that occur on different lengths and sizes within the same object

- Can be seen in nature: snowflake, ferns.. Hofstadter's butterfly
- Mathematical and frequency related; God's omnipresence
